

FOR NEW ZEALAND TRADIES

Invoice on site. Get paid before you drive away.

Quotes, GST invoices, card payments by QR code and your own booking page — in one simple app that runs on the phone already in your pocket.

- ✓ GST invoices & quotes
- ✓ Quote → invoice in one tap
- ✓ Card by QR · bank transfer · cash
- ✓ Before & after site photos
- ✓ Your own customer site
- ✓ Verified licence badges

30-day free trial

trades.tenvio.net

The job is finished at 3pm. The paperwork shouldn't wait until 9pm.

Tenvio Trades is built around one moment: the job is done, the customer is standing there, and you want to leave with the invoice sent and the money on its way.

- 1

Chasing payments for weeks

→

Show a QR code. Your customer pays by card on their own phone while you pack the van — the invoice marks itself paid.
- 2

Retyping prices into invoices

→

Tap lines from your price book. GST is worked out for you and every invoice gets the next number.
- 3

"Are you actually licensed?"

→

Your EWRB, PGDB or LBP licence appears as a verified badge on every invoice and on your customer site.
- 4

Paying for every login

→

Your crew is included — up to 5 people on Standard and 10 on Plus, owner included. No per-person charge.

Screens shown with sample data.

One job, start to finish.

1

A customer asks

They find your customer site — from your van, card or Google — and send a request with the address and a morning or afternoon that suits.

Ask for a quote

Tell us what you need. We reply by phone or email — no payment now.

Your name

Phone

2

You quote and schedule

The request waits at the top of Jobs. Call with one tap, send a quote, and put the job in the diary. When they say yes, the quote becomes the invoice.

This quote is now invoice INV-2026-0014.

View invoice

Issued 11/09/2026 · Due 11/10/2026

Bill to Oakridge Rentals Ltd · Level 2, 30 Customs Street East, Auckland 1010

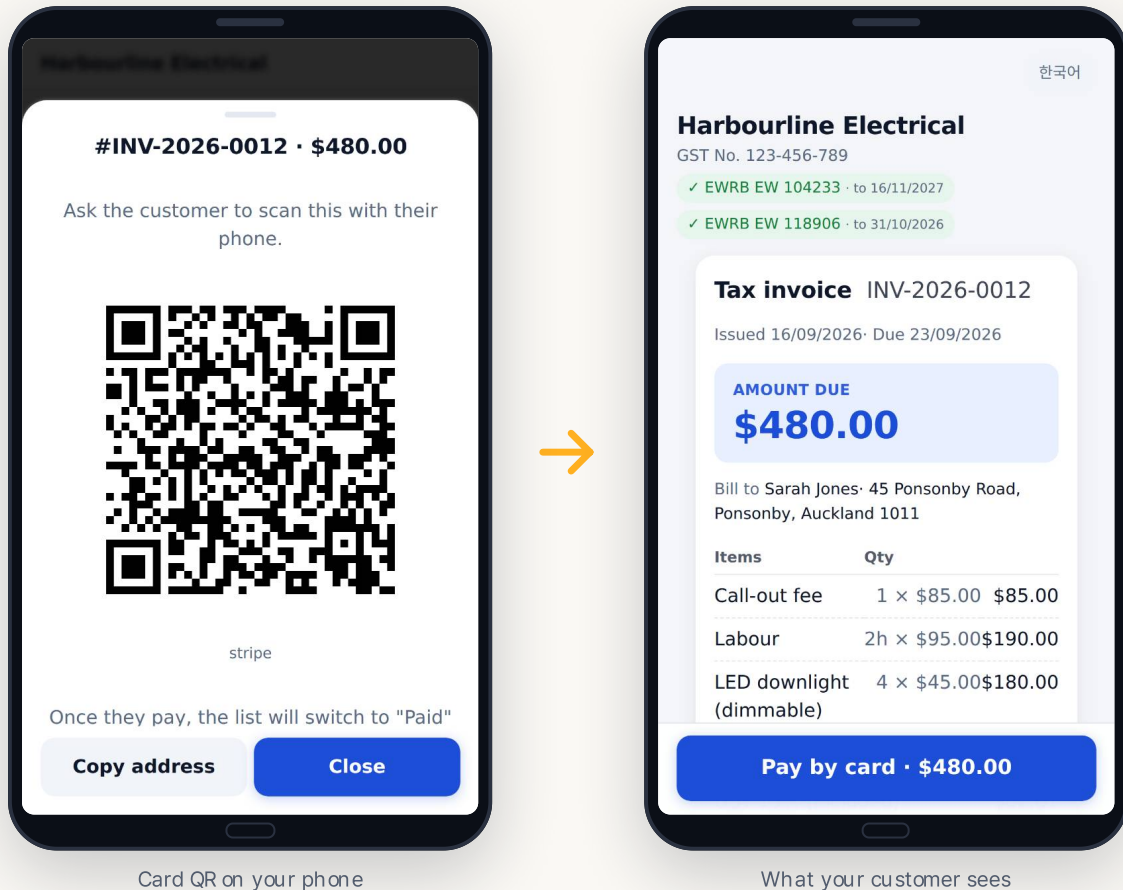

Items	Qty	
Electrical safety check (fixed price)	2 × \$189.00	\$378.00
RCD 30mA	2 × \$65.00	\$130.00
GST 15% (included)		\$66.26
Total		\$508.00

Customer opens the quote link

- ✓ Lines, prices and discount carry over **exactly as quoted** — even if you have raised your price book since
- ✓ The quote and the invoice link to each other, so you can always see where an invoice came from
- ✓ The invoice gets its own number and due date; GST is worked out on the day you invoice
- ✓ If the customer opens their old quote link, they are pointed straight to the invoice to pay

Three ways to pay. Zero chasing.

Every invoice comes with a link your customer can open on any phone — no app, no login. Or just turn your screen around and show the QR code.

Card QR on your phone

What your customer sees

Card by QR or link

Your customer pays by card on their own phone through Stripe. The money goes straight to your Stripe account, and the invoice turns to Paid on its own once Stripe confirms it.

Bank transfer

The invoice shows your account number and the invoice number as the reference, with copy buttons. Tap **Transfer received** when it lands.

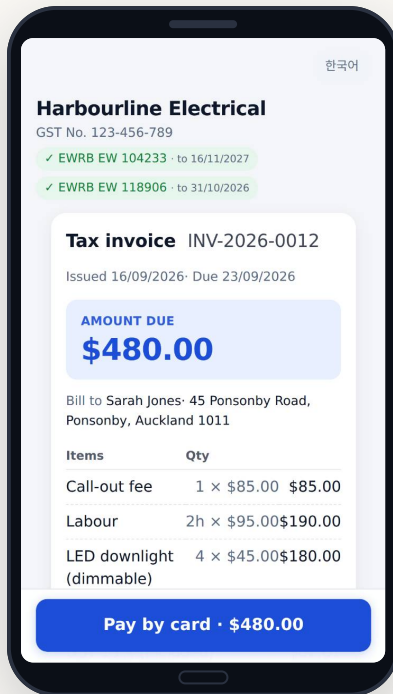

Cash

Tap **Cash received** — the full balance or just part of it.

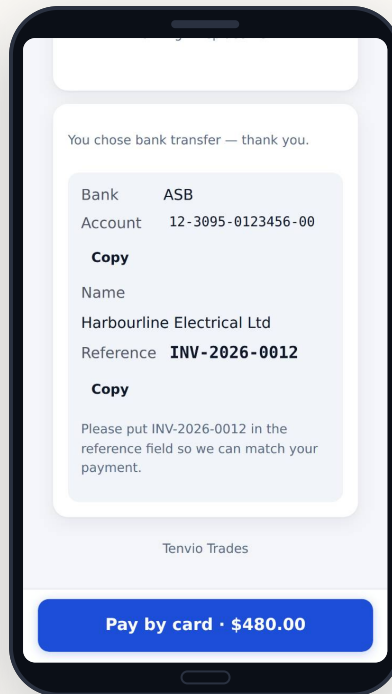

Connect Stripe from Settings in about five minutes. Card payments are processed by Stripe and Stripe's processing fees apply.

An invoice your customers trust — and pay.

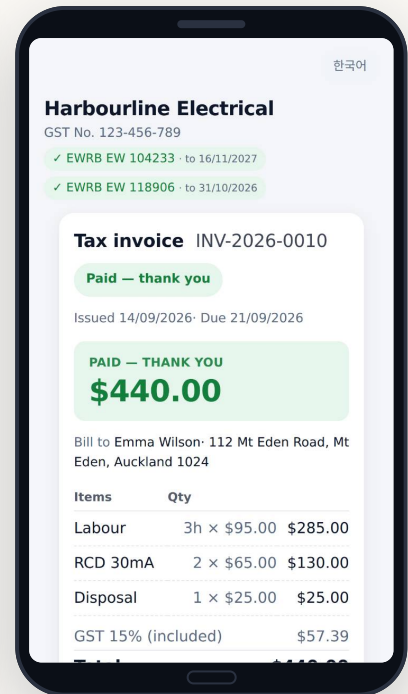

Clean, clear and mobile-first. Your business name and verified licences sit at the top, the amount due is impossible to miss, and paying takes a couple of taps.

Amount due

Bank transfer details

Paid — thank you

Send it however your customer likes

Every invoice has its own private link under your business name. Send it from your phone by text, WhatsApp or email, or let Tenvio email the invoice for you.

harbourline.tenvio.net/i/Nf0CKc2gSS2Bb9r4ebRKw9

Send

Copy customer link

Email invoice

No app or login

The link just opens — on any phone or computer.

English or Korean

Customers can switch language with one tap.

Verified licences

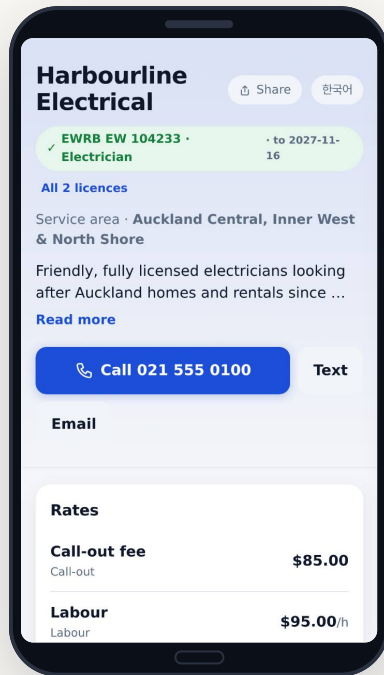

Only licences Tenvio has checked, and that are still current, are shown.

Paid — thank you

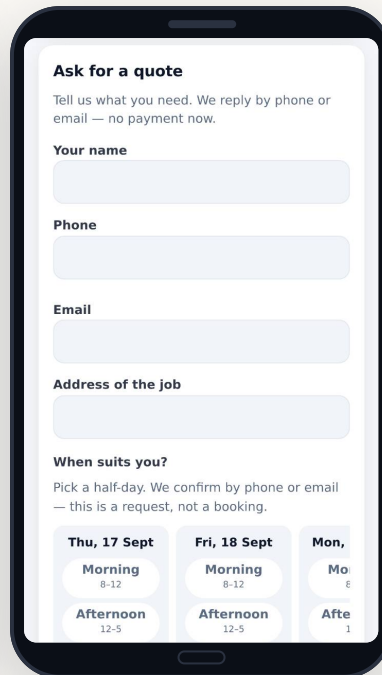

After payment the same link becomes their receipt.

Your own page that brings in the work.

Switch on a simple, fast page for your business — who you are, where you work, your licences and the rates you choose to publish. Customers can call, text, email or send a quote request straight into your Jobs list.

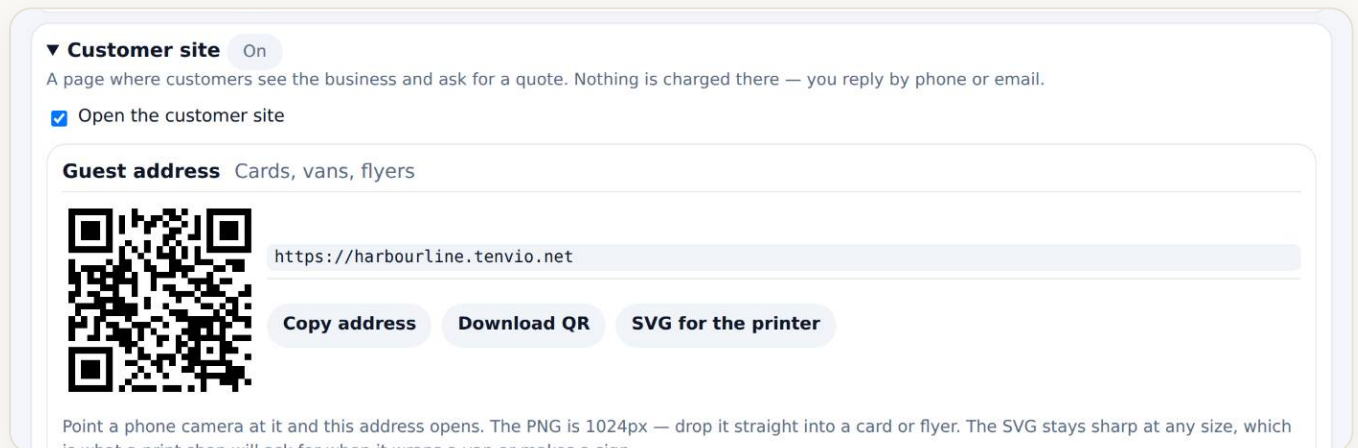

Your customer site

Ask for a quote

- ✓ Your own address plus a **QR code** ready for the van, business cards and flyers — PNG or print-ready SVG
- ✓ Quote request form with built-in spam protection
- ✓ **Date booking**: customers pick a morning or afternoon; you set how many jobs each window takes
- ✓ **Book & pay**: customers can pay up front for fixed-price work, such as a safety check, with the refund rule you choose

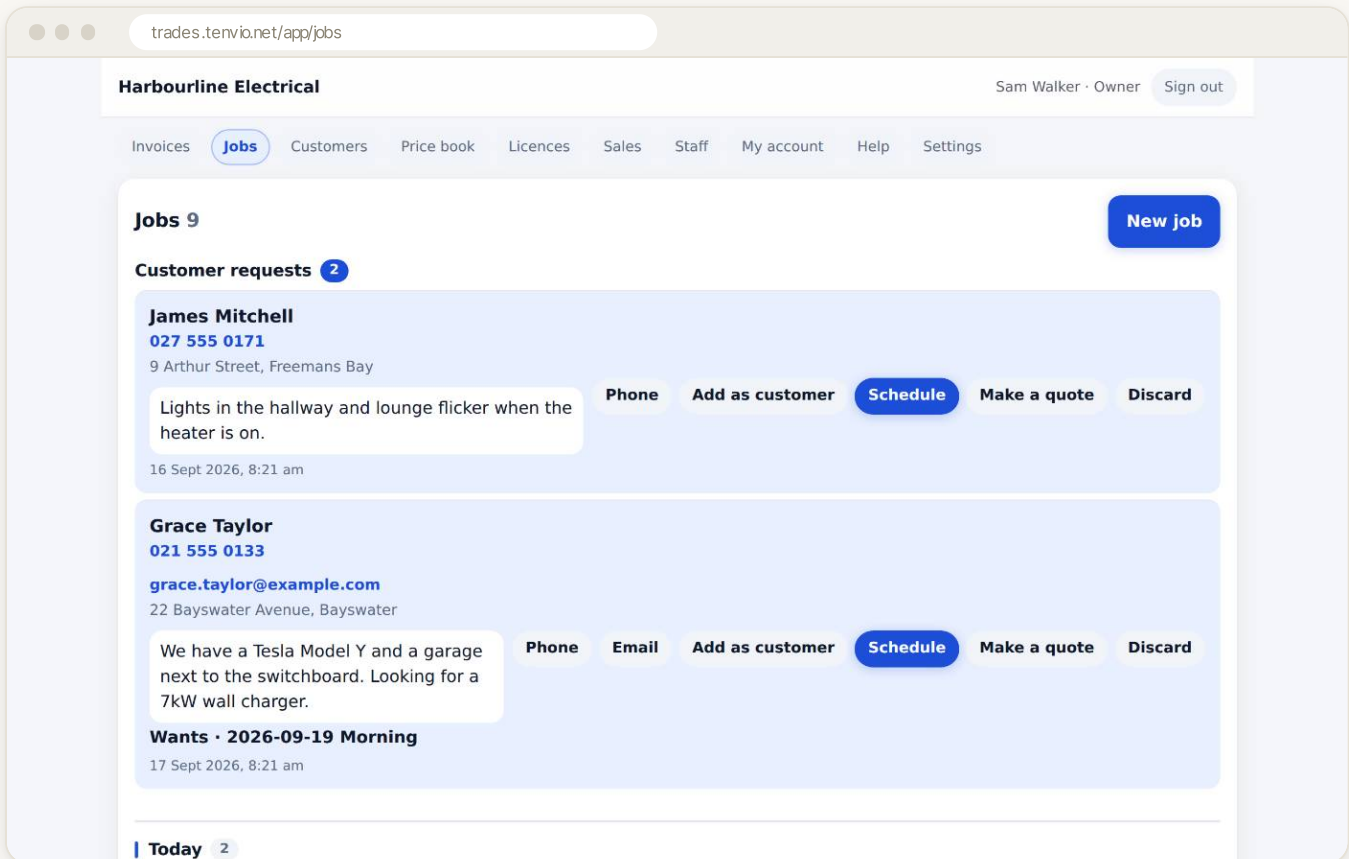

⚡ **Date booking and Book & pay are included in Plus.**

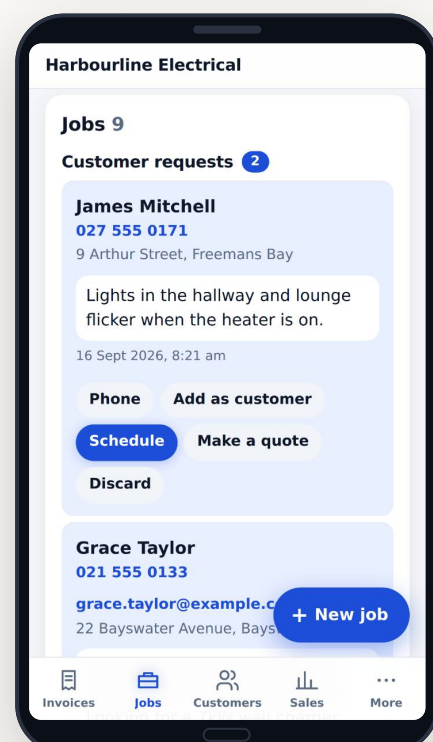

QR code and address in Settings

Every request and every job in one list.

New requests from your customer site wait at the top with call and email buttons. Below them, today's jobs, what's coming up and what's done — each one a tap away from an invoice.

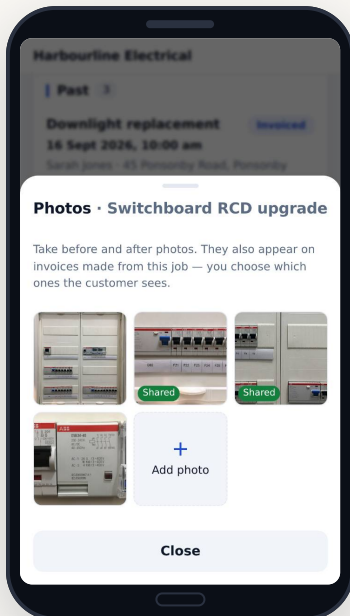

- ✓ **Customer requests** show the address, the details and the half-day they want
- ✓ Call or email in one tap, add them as a customer, then schedule or quote
- ✓ Today · Upcoming · Past at a glance
- ✓ **Create invoice** from a job — customer and details already filled in
- ✓ Clear status: Requested → Scheduled → Done → Invoiced

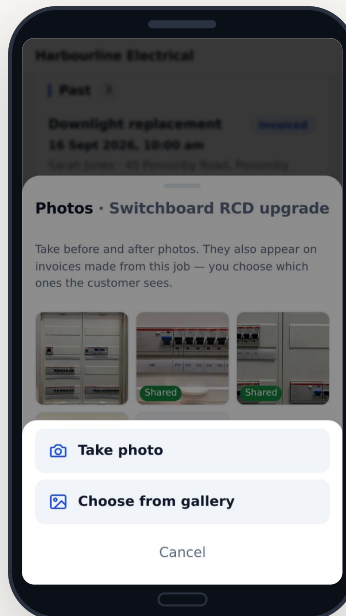

Before and after, right on the job.

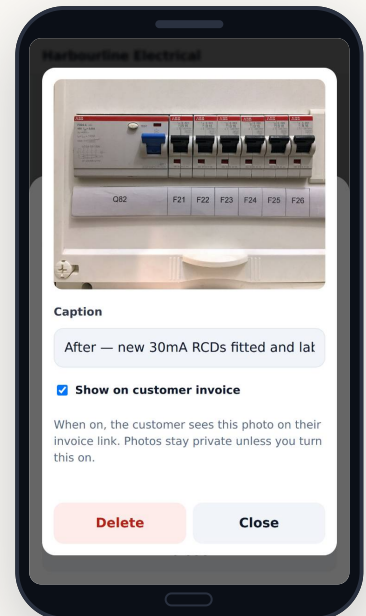

Take photos on site or pick them from your gallery. They stay on the job and follow it onto the invoice — proof of the work, and fewer arguments about what was there before.

Photos on a job

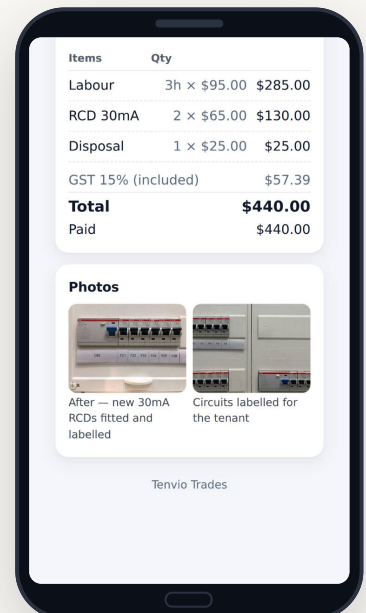

Take or choose

Caption and sharing

- ✓ **Take photo** opens the camera straight away; **Choose from gallery** adds several at once
- ✓ Photos are resized on the phone before upload — quick on mobile data
- ✓ Add a caption, and choose photo by photo what the customer sees — **private by default**
- ✓ Shared photos appear on the customer's invoice link under Photos

⚡ Site photos are included in the Plus plan.

What the customer sees

Set your prices once. Use them on every job.

Keep your call-out fee, hourly rates and common parts in the price book. Each line can be kept private, shown on your customer site, or offered for prepayment.

Know where the money is — in one screen.

See what you've invoiced, what you've collected and what's still outstanding, for today, this week, this month or any dates you choose.

- ✓ **Invoiced**, including the GST in it
- ✓ **Collected**, split by card, bank transfer and cash, net of refunds
- ✓ **Outstanding** right now, with overdue invoices called out
- ✓ Day-by-day bars to spot the busy and quiet days
- ✓ **Export to Xero**: a ready-to-import CSV of your invoices for any period

Export to Xero

Download issued invoices as a Xero import file (CSV). Quotes and void invoices are left out.

From **01/08/2026** To **31/08/2026**

Sales account code

200

Sales is 200 in Xero's default chart of accounts. Change it if your accountant uses another code — it is remembered next time.

1. In Xero, upload this file via Sales → Invoices → Import.
2. Choose "Tax inclusive" for amounts — tenvio amounts include GST.
3. Don't import the same period twice — invoices would be duplicated.

[Download CSV](#)

[Close](#)

Export to Xero

Bring the crew. Keep control.

Invite staff by email, sign-in QR or a one-time password. The owner and managers see sales and give refunds; office admin confirms payments; field technicians invoice and get paid on site.

Your data is yours.

▼ Tenvio support access

Tenvio operators can open these screens only while you allow it here. Allow it when support needs to see what you see. When they come in, everyone with settings permission is emailed, everyone signed in sees a banner, and it is written to the log below.

☒ Not allowed Operators cannot come in — the only exceptions are emergencies such as legal requests or security incidents, and even then you are emailed the reason.

☐ Also allow changes (off = view only — the operator cannot change anything)

[Allow 24 hours](#)

[Allow 72 hours](#)

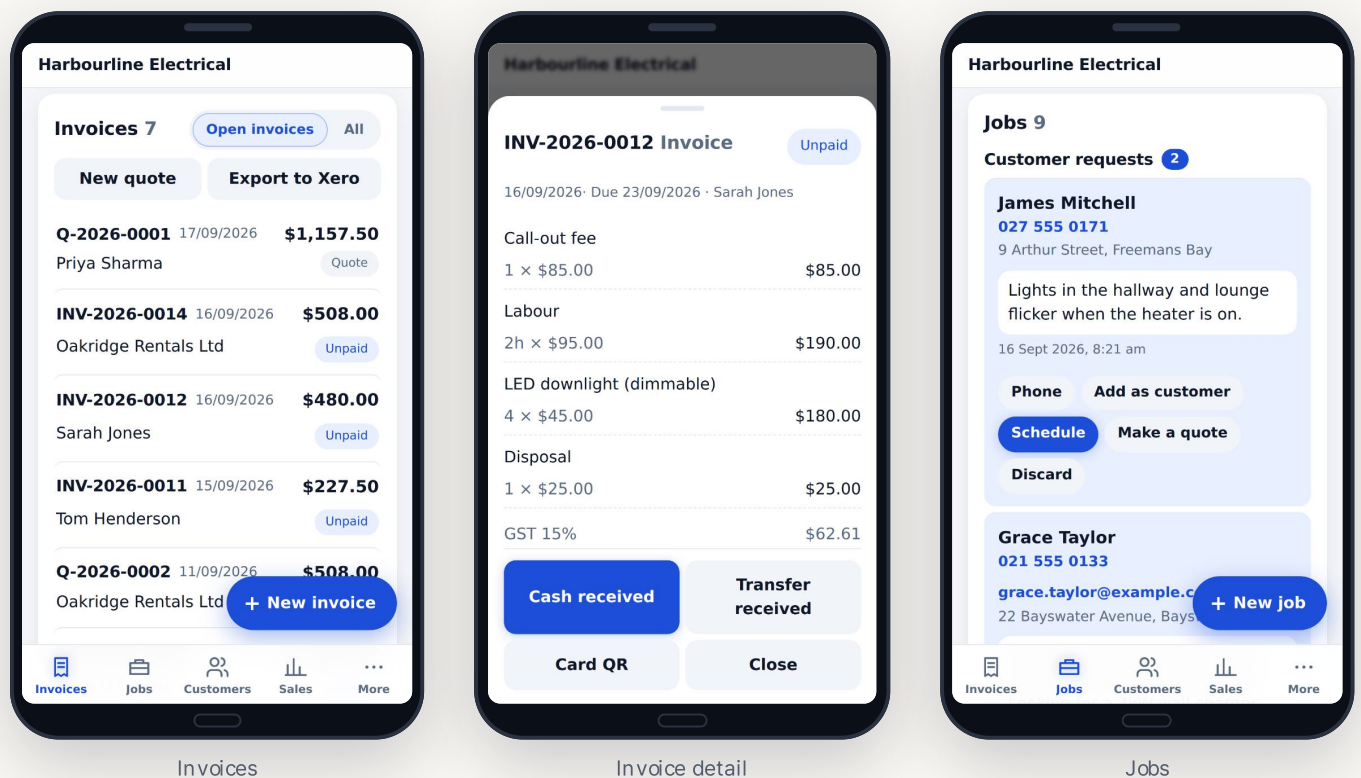

[View access log \(0\)](#)

Tenvio support access — off until you allow it

- ✓ Support access is **off until you allow it** — for 24 or 72 hours, view-only unless you say otherwise. The one exception is an emergency: view-only, 24 hours, with a written reason
- ✓ A banner and an email tell you whenever support is in, and every visit is logged
- ✓ Data is stored on servers in Sydney, Australia, and you can export it at any time

Built for the ute, not the office.

Tenvio Trades runs in the browser on any phone, tablet or computer. Add it to your home screen and it opens like an app.

Phone-first

Big buttons and a bottom tab bar that's easy to use with one hand.

English and 한국어

Your team can use the app in English or Korean.

Nothing to install

No app store needed — open trades.tenvio.net and sign in.

Simple pricing. Your crew is included.

Start with a free 30-day trial of everything in Standard. Pick a plan when you're ready.

⚡ Free trial 30 days of everything in Standard, starting on your onboarding day.

FOR SOLE TRADERS

Getting set up

One hour together: we load your price book, register your licences and connect Stripe, then run a test card payment.

Remote onboarding

Free

On-site onboarding

\$149

Pay yearly and get **2 months free**.

Good to know

Your money, your account

Card payments go straight into your own Stripe account — Tenvio never holds your money.

Your data stays yours

Stored in Sydney, Australia. Support access stays off until you allow it, and every visit is logged.

English & 한국어

The app and customer screens both work in English and Korean.

All prices in NZD, excluding GST. Card payment fees are on the next page. Extra training is charged by the hour.

No terminal to rent. Card fees only when you get paid.

Customers pay on their own phone — no EFTPOS machine to lease or keep charged. Card fees come out of each card payment; your Tenvio plan is a separate software subscription, not a payment fee.

	A typical EFTPOS terminal	Tenvio card QR
Terminal rental	\$30–\$60+/month (terminal, network, SIM)	\$0 — no terminal, network, SIM
Quiet months	Terminal rental is still due	Card fees only on what you take
Software subscription	Not included — software is extra	Plan from \$29/month for invoicing software — not a payment fee
Getting started	Bank set-up, then wait for a terminal	Connect Stripe in about 5 minutes
Where customers pay	On your terminal	On their own phone — QR or link

ALL-IN CARD FEE

3.1% + NZ\$0.30

per card payment · NZ-issued cards

Overseas-issued cards **3.95% + NZ\$0.30**

- ✓ Card processing by Stripe
- ✓ Money goes straight to your own Stripe account and bank
- ✓ Tenvio's platform fee

Example: a \$480.00 invoice

Invoice total	\$480.00
Card fee (3.1% + \$0.30)	\$15.18
You receive	\$464.82

Big job? Bank transfer has no card fee.

Every invoice shows your bank account and the invoice number as the reference. Tap **Transfer received** when it lands.

Example uses an NZ-issued card. The card fee does not include your Tenvio plan, and the plan does not include card fees. Prices and typical NZ terminal costs exclude GST.

Try it on your next job.
